

SOLIDARITY

S C H O O L

TRAINING & POPULAR EDUCATION THAT MEETS THE MOMENT

A dynamic series of trainings and popular education workshops designed to meet the urgency of our political moment with clarity, courage and collective action. Rooted in a commitment to justice and liberation, these sessions equip educators with the tools, analysis and strategies to challenge oppressive systems and build power in their schools, campuses, and communities.

We aim to strengthen solidarity across movements through political education, skill-building and community dialogue. Solidarity School is a space to learn, unlearn and take collective action for a more just and liberated world.

Solidarity School trainings and workshops aim to build a fall cohort who will reconvene in person to share experiences of moving learning into action.
