

New Member Program

DATES & TIMES:

Sun., July 31 – 1-5 pm

Mon., Aug. 1 & Tues., Aug. 2 – 9 am–5 pm

Weds., Aug. 3 – 9 am-3 pm

This program is ideal for members in their first five years of practice. As a participant, you will learn about the union at the local, state and national levels. You will also learn how to become involved in your own local's efforts to advocate for educators and students.

You will work collaboratively with current union leaders and MTA staff to further develop a wide variety of skills, including negotiating, problem-solving, organizing and handling grievances.

You will also have an opportunity to try these skills in simulation. This track provides an excellent opportunity to collaborate with, learn from and socialize with MTA members from across the state. Many of our former participants have gone on to become leaders within their locals and the MTA.

Ideal for: Educators in their first five years of practice. No prior union leadership or negotiations experience.
