

# Next Generation Leaders

## DATES & TIMES:

**Sun., July 31 & Mon., Aug. 1 – 9 am–5 pm**  
**or Tues., Aug. 2 & Weds., Aug. 3 – 9 am–5 pm**

This program will teach members how to work with other members to create bottom-up activism and help make their local associations powerful and effective organizations. It is for members who want to solve workplace problems through active engagement. All members who are interested in engaging more actively in their union are welcome to attend-- whether you've been a member for one year or 20 years. The program is designed to help participants understand the fundamentals of outreach, recruitment, involvement, strategy, decision-making and planning of direct-action strategies for empowerment of MTA locals. Three major themes will resonate throughout the training:

- Assessment of the balance of power
- How to bring people together around commonly felt problems
- Designing and carrying out action plans to solve problems.

**Ideal for:** Any member who wants to learn how to solve workplace problems through active engagement.
