PROPOSED AMENDMENTS TO REGULATIONS ON
OR SCHOOL EVALUATION OF EDUCATORS

603 CMR 35.00

- Presented to the Board of Elementary and Secondary Education for initial review and vote to solicit public comment: November 29, 2016
- Period of public comment: through January 27, 2017
- Final action by the Board of Elementary and Secondary Education anticipated: February 28, 2017

Summary: Currently, under the existing regulations, teachers and administrators receive two separate ratings, a summative rating and a student impact rating. The regulations established a timeline of staggered implementation, with districts adopting a process for determining a summative rating first and subsequently adopting the process for determining the student impact rating. Over the last few years, districts have successfully implemented the process for determining the summative rating. Implementing the process for determining an educator's student impact rating has been more challenging. The Department has discussed with stakeholders and now is proposing amendments to the regulations to address concerns. These amendments eliminate the separate student impact rating, while maintaining student learning as a central consideration in the educator evaluation process. This approach will address the concerns about a separate impact rating while retaining evidence of student learning based on multiple measures, including common assessments and statewide student growth measures, as an important component of the summative performance rating. In addition, the proposed amendments also include technical changes unrelated to the student impact rating, such as removing provisions describing timelines that have expired.

See below for the full text of the regulations, with the proposed amendments redlined. The regulations are posted at: http://www.doe.mass.edu/lawsregs/603cmr35.html.
